ALLOWANCE

Response to Amendment

1. This action is responsive to the Amendment filed on 13 March 2006. The abstract has been amended. Claims 1-11 are pending.

Specification

2. Based on the Amendment filed on 13 March 2006, the objection to the abstract has been withdrawn.

Response to Arguments

3. Applicant's arguments, filed 13 March 2006, with respect to claims 1-11 have been fully considered and are persuasive. The rejections/objections of claims 1-11 have been withdrawn.

Allowable Subject Matter

4. Claims 1-11 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowability of claims 1-11 is the inclusion of the limitation that the optical delay means delays the optical signals containing routing information attached to the header parts of the optical signals. The prior art does not

disclose delaying the header parts of the optical signal or delaying the routing information within the header parts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
